Anusha Fatima!

Data Analyst

Hi THERE!

Hi! I'm a data analyst based in **Karachi, Pakistan**. I love building useful, and user-friendly websites that actually help people.

Alongside web development, I bring strong experience in data analysis, including data cleaning, interpretation, and reporting. I work confidently with **Python** and **Excel** for effective data management and insights.

TECH STACK

Frontend: React, Vite, Tailwind CSS, HTML

3D/WebGL: React Three Fiber, Three.js

Backend: Node.js, MySQL, SQL, JavaScript

Data Tools: Python, Pandas, Numpy, Matplotlib, Power BI

ML Tools: pytorch, tensorflow, keras, scikit-learn

EDUCATION

BS in Data Science (Undergraduate)

Virtual University of Pakistan
Currently Enrolled - 2027

F.Sc. in Computer Science

For Women Degree College 11-i, Karachi
Completed - 2023

CERTIFICATIONS:

SQL for Data Science – **Coursera**
